Mbed Silicon Partner Workshop

Wrap Up

Do you know what week number it is?

18wk13

Do you know how old Mbed OS 5 is?

2 years old, it was born in 16wk13

What actually happened 2 year ago?

We took 20 people, locked them in a hotel and didn't let them out until they finished coding...

Sound familiar?

The project was called
Morpheus

What we learnt

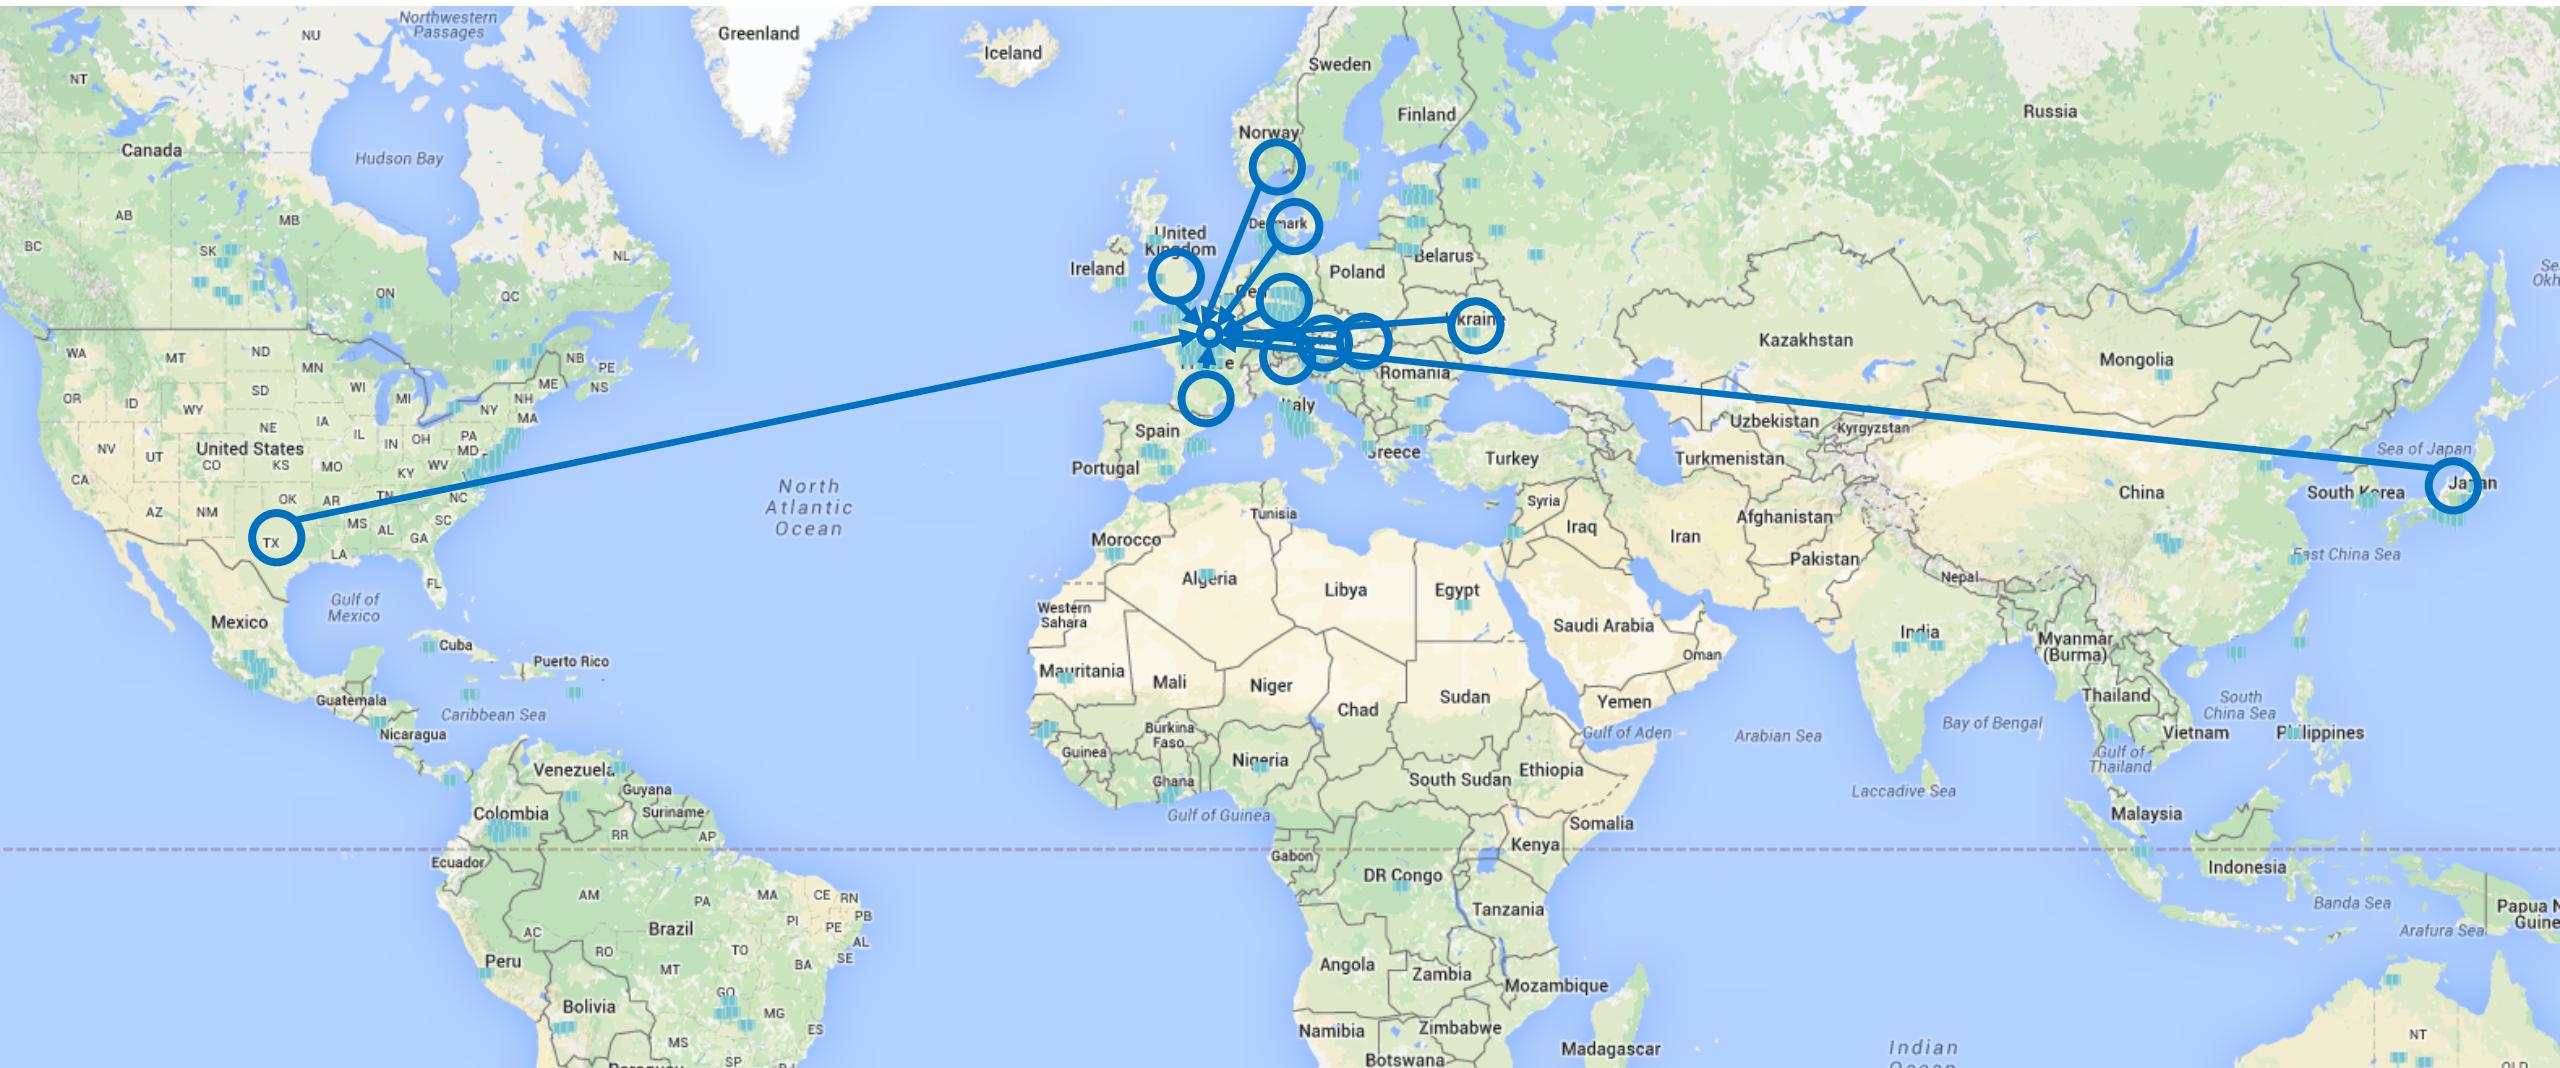

Focus. Step outside the office, turn the email off.

Nothing beats working
together face to face

You were here!

Thank you!

For travelling here from so many different places

For engaging with everything we've thrown at you this week

For being part of our Mbed team!

**It's amazing what we can
achieve in a week**

Things we've done

- Filed 34 pull requests (13 merged, 21 open)
- Committed XX revisions to the workshop branches (we lost count a few times and gave up...😊)
- Found 13 Mbed OS issues, some of which already fixed
- 27 feedback points for further discussions/clarifications
- We went through 271 slides in 10 presentations and 5 hands-on sessions
- On average the workshop conference room was used for >15 hours per day!

Thank you and
safe travels!

Thank You!

Danke!

Merci!

谢谢!

ありがとう!

Gracias!

Kiitos!

감사합니다
